## ***Make Livestock Management a Breeze with Leicht's CIA***

Leicht's CIA is a proudly Australian owned family company celebrating 40 years of manufacturing in 2024. Located in Goombungee, Queensland since 1984, the Leicht's CIA product range continues to keep customers returning time and time again. Our products are proven to stand the test of time whilst being safe, reliable and versatile to every situation.

At Leicht's CIA we manufacture products that are designed and engineered with input from experienced cattlemen and women with high regard to safety, dependability and capability of handling a diverse range of cattle breeds. From the larger parts right down to the smaller intricate details we pride ourselves on quality workmanship. Our products consist of hundreds of single components that are 100% manufactured in the Goombungee workshop. All our products and componentry are produced from predominantly Australian made steel. We pride ourselves on supporting Australian jobs.

Leicht's CIA products are held to the highest regard throughout the industry for their safety and design and are frequently recommended to cattle producers by their peers, local veterinarians, stock agents and also the Australian Veterinarian Association.

We pride ourselves on manufacturing products to best suit the producers needs, therefore customers can customise products to best suit their work environment and further enhance job safety.

## ***'The Intelligent Livestock Equipment'***

Mark Leicht, Managing Director

## ***Why People choose us?***

1. Safety
2. Reliability
3. Affordability

Invest in a Leicht's CIA product today. Safeguard your future with reduced labour costs, create a stress free working environment for both operators and animals as well as gaining maximum productivity of your herd.

**Join the Leicht's CIA family today!**

# INTERROGATOR

## ELECTRIC OVER HYDRAULIC PRO-CHUTE

### STANDARD FEATURES

- Toggle Control Operation
- Hydraulic heavy duty headbail
- Hydraulic V Style Squeeze
- Hydraulic split rear door
- 3 Phase or Single Phase electric motor supplied with hydraulic power unit

*Refer to page 23 for full list of features*

**Customise your Hydraulic Pro-Chute**  
**See Pages 6 & 7**

# INTERROGATOR

## HYDRAULIC PRO-CHUTE

### STANDARD FEATURES

- Lever Control Operation
- Hydraulic heavy duty headbail
- Hydraulic V Style Squeeze
- Hydraulic split rear door
- 3 Phase or Single Phase electric motor supplied with hydraulic power unit

*Refer to page 23 for full list of features*

**Customise your Hydraulic Pro-Chute**  
**See Pages 6 & 7**

# INTRO

## HYDRAULIC PRO-CHUTE

### STANDARD FEATURES

- Lever control operation
- Hydraulic MK5 Headbail
- Hydraulic Squeeze options available
  - Double sided Parallel squeeze
  - V-Style squeeze
- Hydraulic split rear door
- 3 Phase or Single Phase electric motor supplied with hydraulic power unit

*Refer to page 23 for full list of features*

**Customise your Hydraulic Pro-Chute**  
See Pages 6 & 7

# OPTIONAL EXTRAS FOR HYDRAULIC PRO-CHUTES

*WE WILL CUSTOMISE YOUR HYDRAULIC UNIT TO YOUR REQUIREMENTS*

## SUPER SCOOP

- Mounted nearside or offside, with control lever located directly above.

## VET DOOR

## SPLIT RACE GATE

- Placed into any part of your race leading up to the Pro-Chute.

## REMOTE

- Designed to work any of the hydraulic functions.
- 30 metre range
- Dual operation in conjunction with toggle system

## MOTOR

- Petrol or Diesel options available for where power is not available

## HONDA ENGINE

## DIESEL ENGINE

**Also available: Hydraulic Adjustable Bottom Squeeze**

# HYDRAULIC DRAFTING SYSTEMS

**DRAFT ANIMALS FROM PRO-CHUTE INTO INDIVIDUAL PENS, EITHER STRAIGHT, LEFT OR RIGHT**

**INTERROGATOR  
3-WAY DRAFT**

- 5-Way draft also available

**INTRO 3-WAY  
DRAFT**

**INTRO 5-WAY  
DRAFT**

- 5 Way Draft shown fitted to Intro Pro-Chute

**Ask us about Auto Draft systems**

# IMMOBILIZER

## PRO-CHUTE

### STANDARD FEATURES

- Double Sided Parallel Squeeze
  - 355mm fully engaged internal width
  - Upward lifting with ratchet lock
- Front operation of rear slide door to allow for single person operation from the headbail

*Refer to page 22 for full list of features*

**Customise your Pro-Chute**  
**See Pages 19 & 20**

# OUTBACK PRO-CHUTE

## STANDARD FEATURES

- Adjustable V Style Squeeze
  - 270mm fully engaged internal width
- Adjustable bottom for V style squeeze
- Head Extending Rails
- Front operation of rear sliding door to allow for single person operation from the headbail
- Pro-Chute floor

*Refer to page 22 for full list of features*

**Customise your Pro-Chute**

# COUNTRY PRO-CHUTE

## STANDARD FEATURES

- Single Sided Parallel Squeeze
  - 475mm fully engaged internal width
  - Upward lifting with ratchet lock
- Two hinged upper swing out gates for direct access on both sides

*Refer to page 22 for full list of features*

**Customise your Pro-Chute  
See Pages 19 & 20**

# STOCKMAN

## PRO-CHUTE

### STANDARD FEATURES

- Single Sided Parallel Squeeze
  - 475mm fully engaged internal width
  - Upward lifting with ratchet lock
- Two individual drop down upper side gates for direct access on operating side

*Refer to page 22 for full list of features*

**Customise your Pro-Chute**  
See Pages 19 & 20

# BEEF KING PRO-CHUTE

## STANDARD FEATURES

- Rear Ratchet Squeeze
  - 420mm fully engaged internal width
  - Diagonal rear ratchet squeeze with ratchet lock on operating side
- Manual ratchet arm non operation side
- Two hinged upper swing out gates for direct access on both sides

*Refer to page 22 for full list of features*

**Customise your Pro-Chute  
See Pages 19 & 20**

# BLACK BUTE

## PRO-CHUTE

### STANDARD FEATURES

- Rear Ratchet Squeeze
  - 420mm fully engaged internal width
  - Diagonal rear ratchet squeeze with bayonet
- Manual ratchet arm non-operating side

*Refer to page 22 for full list of features*

**Customise your Pro-Chute**  
See Pages 19 & 20

# RINGER PRO-CHUTE

## STANDARD FEATURES

- Full draft gates on both sides, split horizontally on operating side

*Refer to page 22 for full list of features*

**Customise your Pro-Chute**  
**See Pages 19 & 20**

# EXCLUSIVE THE JACKAROO

## STANDARD FEATURES

- MK5 headbail
- Two drop down upper body access doors on operating side
- Front operation of rear door
- Front & rear open/close headbail operation
- ¾ sheeted rear slide door
- Full veterinary facilities
- Full draft gates on both sides, split horizontally on operating side
- Fully sheeted bottom split door
- Weigh bar mounting plates
- Yellow handles for operators visibility
- Available in nearside or offside operation

## OPTIONAL MODIFICATIONS AVAILABLE

- Head extending rails
- Anti back up lugs
- Lower body access door

**Available Only Through  
Nutrien Ag Solutions**

# MK5 HEADBAIL

**YOKE SHAPE**

## STANDARD FEATURES

- Simple push-pull movement to open and close Ratchet Lock for ease of operation
- Fully sheeted to eliminate leg injury
- Heavy Duty
- Available in Nearside or Offside operation

## OTHER HEADBAIL OPTIONS AVAILABLE:

- Straight doors (pictured)
- Extra Heavy Duty Upgrade
- Galvanised SHS
- Hot Dipped Galvanised

**Yoke Door Shape is standard throughout our Pro-Chute Range.**

**CAN ALSO BE PURCHASED AS A STAND ALONE UNIT**

**STRAIGHT DOOR**

# SWINGARMS

## SUPER SCOOP

- Designed to restrict side to side and up and down movement of the animals head
- Rubber lined

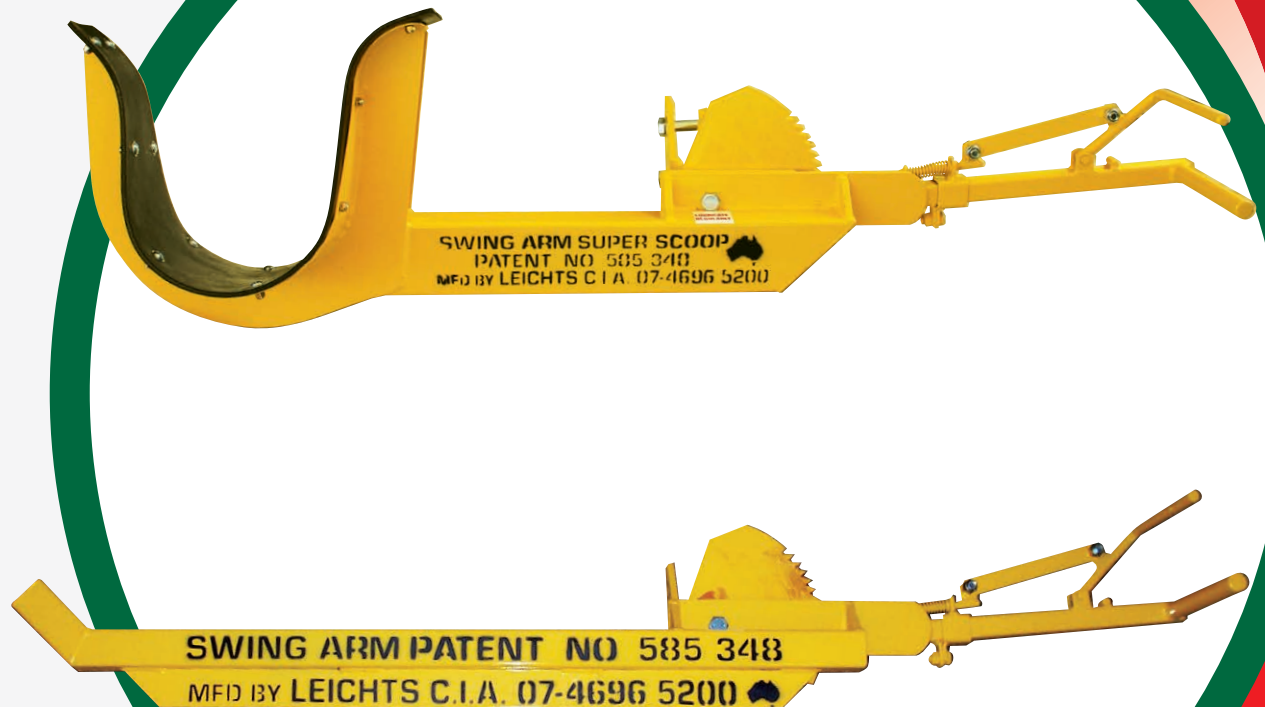

## NECKBAR

- Designed to restrict animals up and down head movement
- Will lift the animals head from ground level and hold it at a desirable height

*Both Swingarms are designed to reduce stress on the animal whilst in the Pro-Chute*

### SAFETY FEATURE

Both swing arms are fitted with quick release case hardened ratchet systems to avoid choking problems should the animal fall in the Pro-Chute.

# PRO-CHUTE ACCESSORIES

## ROOF KIT

- Protects against weather conditions
- Easy to assemble
- Flat packed for transport

## HEAD EXTENDING RAILS

- Holds the animals head 60mm out from the face of the headbail
- Makes ear-tagging and dehorning more accessible

## BAULK GATE

- Assists the operator in reducing the number of animals that slip through the headbail by blocking their path
- Can be fitted to the freestanding MK5 Headbail and any of our Pro-Chute range

## INDICATOR ARM

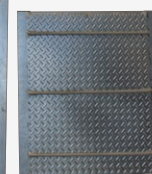

- Rotating arm designed to hold your weighing indicator
- Can be easily installed and removed.

## PRO-CHUTE FLOORS

- Removable Two piece unit
- Fully hot dipped galvanised

### OPTION 1

- 3mm Steel Checkerplate

### OPTION 2

- Steel Floor with rubber

# CUSTOMISE YOUR PRO-CHUTE

**CUSTOMISATIONS ARE ONLY ABLE TO BE FITTED  
DURING THE MANUFACTURING PROCESS**

**Did you know that you  
can also modify the length  
& width of your Pro-Chute to  
suit your requirements?**

## FULLY HOT DIPPED GALVANISED

- Pro-Chute is fully assembled and then disassembled as part of the galvanising process
- All doors and frames are internally vented and fully submersed, allowing the hot dipped galvanising to coat the inside and out of all SHS.
- Pro-Chute is fully reassembled after the process is complete

## GALVANISED SHS UPGRADE WITH PAINTED FINISH

- Extend the life of your Pro-Chute by choosing a galvanised upgrade
- Duragal SHS frame & doors are all constructed using Gal SHS
- Zincaneal sheeting is used for all doors with the remaining components as per our standard Pro-Chute construction

## PAINTED COATINGS

High Quality  
Epoxy Enamel

Super Etch  
Primer

Australian Made Duragal  
plus grade C350 hot dipped  
galvanised strip, Galvanised inside  
& outside minimum average coating  
mass 100g/m2

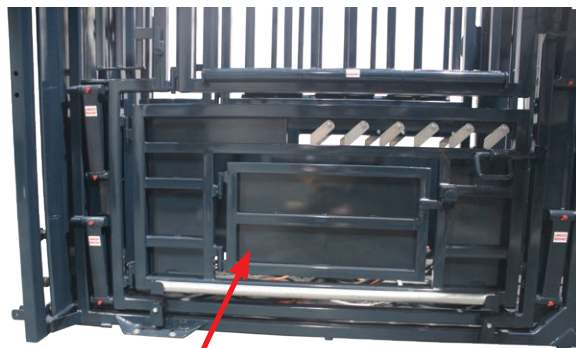

# CUSTOMISE YOUR PRO-CHUTE

**CUSTOMISATIONS ARE ONLY ABLE TO BE FITTED DURING THE  
MANUFACTURING PROCESS**

## TIMBER SCANNING PANEL

- ID Scanner can be mounted to the scan panel, once installed

## LOWER BODY ACCESS DOOR

- Used for semen collection, calf feeding and inspecting of feet and legs

## SPLIT REAR SLIDING DOOR

- Replace a standard rear sliding door

## NEEDLE ACCESS DOOR

- To allow closer access to the neck area

## OVERHEAD SCALE MOUNTS

- Allows you to mount your scales on top of your Pro-Chute rather than underneath

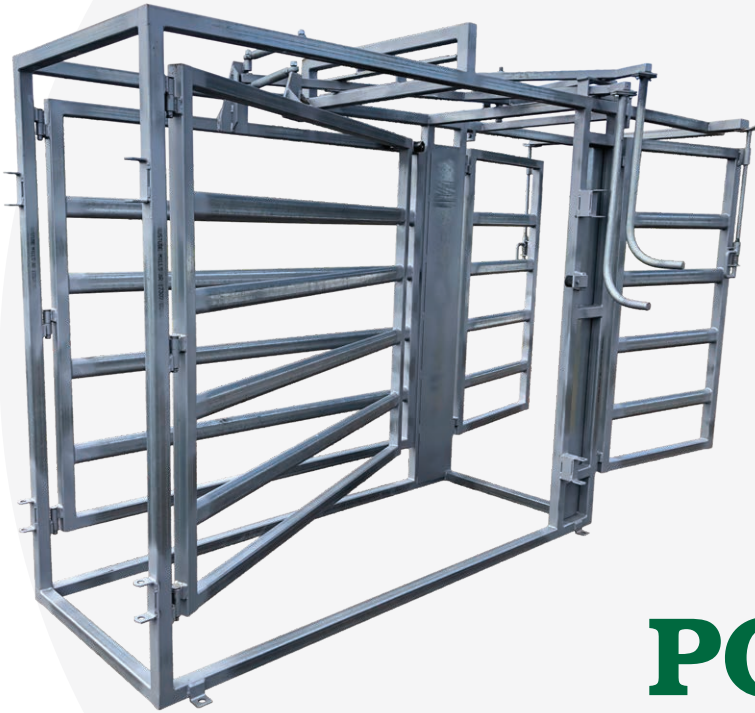

## OTHER CUSTOMISATIONS AVAILABLE:

- Modify the size of your Pro-Chute: Shorter, Longer or Wider to suit your requirements
- Rearrange door configuration

*All available to customise your Pro-Chute to suit your requirements*

# MANUAL 3-WAY DRAFT

The Manual 3-Way Drafting System is designed to allow animals to be manually drafted 3 different directions once they have been processed through the Pro-Chute.

It allows the animals to be drafted either left, right or straight ahead which is all controlled by the hand levers located on the operating side. The manual 3-Way Drafting System also features a man access area before the drafting gates to allow access to the front of the Pro-Chute.

*Manual 5-Way Draft also available*

## PORTABLE TRAP GATE

- Decrease the expense of mustering
- Easy to install, into an existing fence by using Leicht's CIA relocatable Yard Panels
- Can be changed between training and catching settings, by altering the spears from side to side, as shown

TRAINING 300MM

CATCHING 100MM

# SAFETY CONTROL PEN

**Austalian made Duragal plus grade, C350 Hot Dipped galvanized strip, formed and welded by Austube mills, Galvanized inside & outside. Minimum average coating mass 100g m2.**

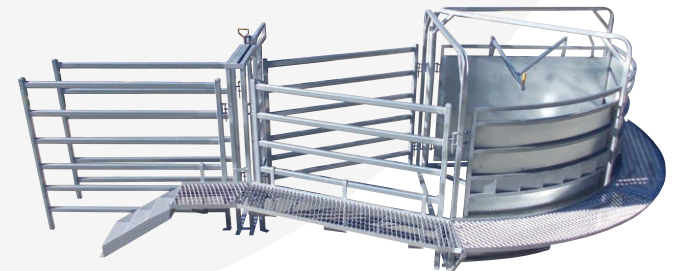

The Safety Control Pen has been designed to be safely operated from the elevated external walkway.

Its main purpose is to assist in single person operation for a smooth and stress-free flow of cattle into the race.

## STANDARD FEATURES

- Gate control handle operated from the elevated external walkway with handrail (not shown in photo)
- Safety latch locking mechanism
- Gate locking points every 300mm
- Fully galvanised and sheeted walls and swing gate
- Galvanised mesh walkway and checker plate steps
- 40x40x2.0mm galvanised RHS frames
- Available in clockwise and anti-clockwise

*Optional rubber lined panels available*

*Image shown above is fitted with optional panel, sliding gate and walkway*

# CURVED RACE & CROWD PEN

The Curved Race & Crowd Pen are designed to move the cattle smoothly and continuously from the Crowd Pen to Curved Race and into the Pro-Chute, reducing stress on both animal and operator. It is a safe, efficient and economical way to work cattle.

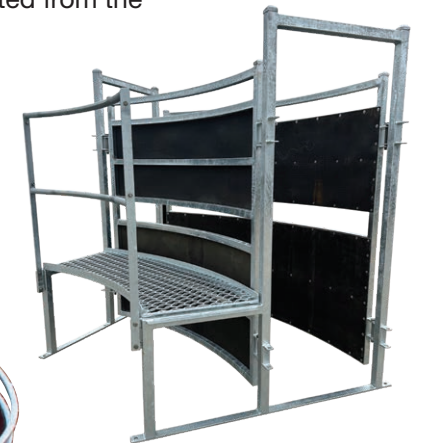

*It is recommended that the Curved Race and Crowd Pen be mounted on a concrete slab.*

## Custom Options Available

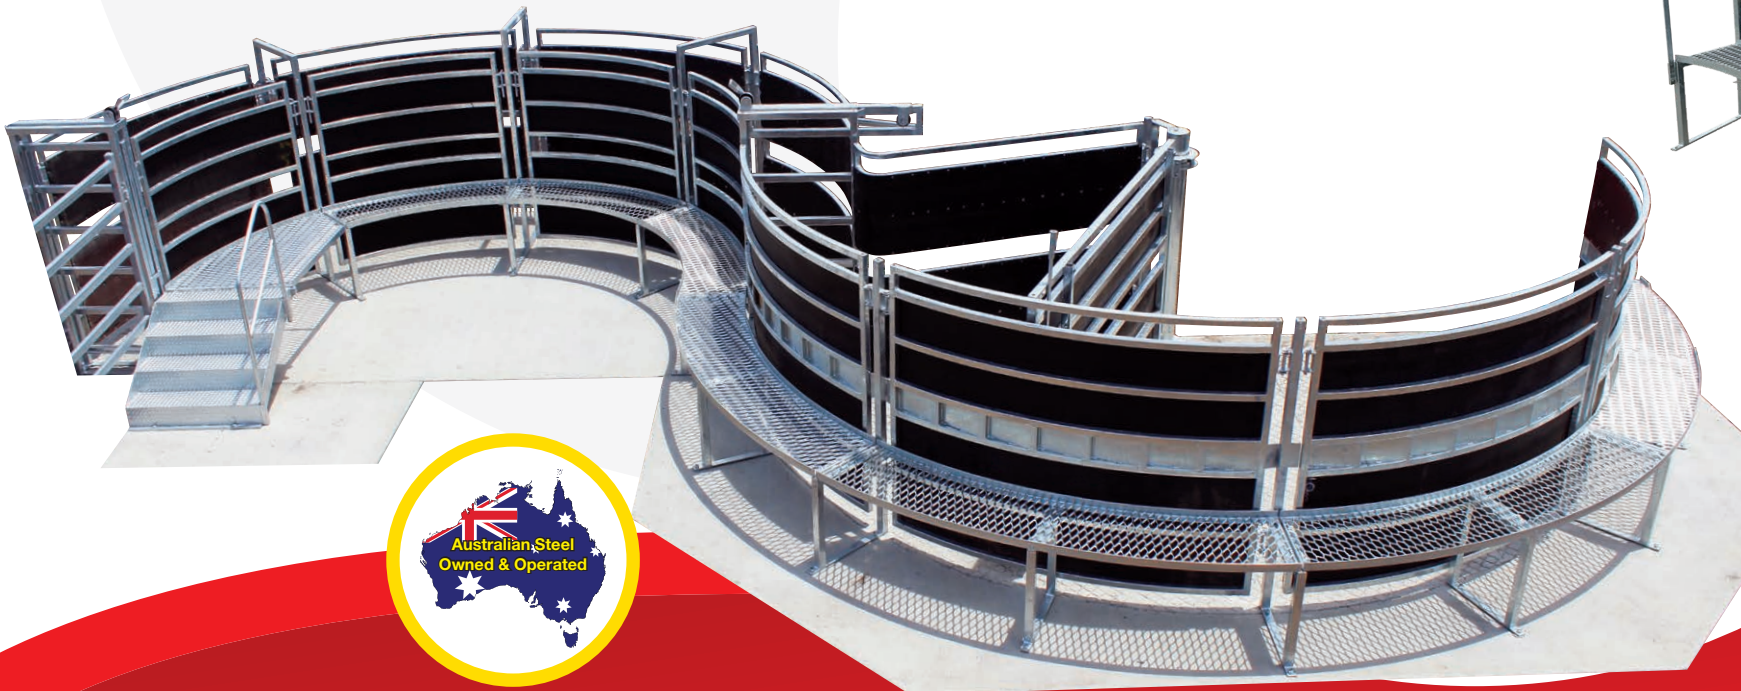

- Custom Designs
- Rotating swing gate in hydraulic option

## STANDARD FEATURES

- Fully hot dipped galvanised - Australian standard AS/NZS 4680.2006. Minimum of 600/gm<sup>2</sup>
- Elevated external walkway with handrail allows the operator to see ahead to the race and provides safety for the user and the ability for one person operation.
- Hot dipped galvanized curved rubber lined panels which are designed to create the half circle.
- A single gate pivots from an anchored center post which is operated from the elevated walkway.
- The rotating swing gate safety latch locks at 300mm intervals.
- Manually operated rotating swing gate
- Available in clockwise and anti-clockwise

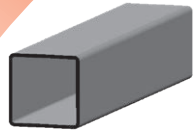

Handrail fitted to full length of walkway

# RELOCATABLE YARD EQUIPMENT

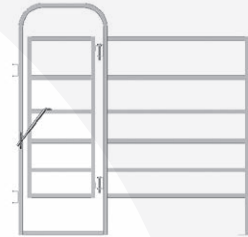

## STANDARD YARD EQUIPMENT

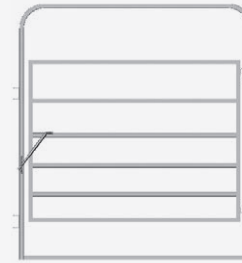

**Rail size: 40x40 x2.0mm**  
100% Australian Made Steel

# LOADING RAMPS

## 4.8M RAMP

Fitted with 1.5m ramp extension with man access, catwalk and handrail, top sliding gate, side loading gate and platform

## 4.8M STANDARD

Also available in adjustable design

## 4.8M RAMP

Fitted with 1.5m ramp extension with man access, catwalk and handrail.

**All Loading Ramps are constructed from Oval Rail Material with timber floors**

## 3M ADJUSTABLE

## 3M STANDARD

**Optional Walkway & Handrail Available on all ramps**

# MOBILE PRODUCTS

## MOBILE WHEEL KIT

- Designed so your pro-chute can be easily moved from one location to another

*\*Wheel Kit must be fitted at time of pro-chute manufacture*

## COTTON SEED FEEDERS

Designed to be filled at the storage shed and towed out to the paddock

- 2.5 Tonne capacity
- 4.8m bin length
- Fold up draw bar
- 16" tyres and rims on 8 leaf spring tandem axel

## 3 METRE MOBILE LOADING RAMP

- Timber Floor
- Can carry up to 34 portable panels

*\*Products shown are not road registered.  
Road registration available on request.*

# GRAIN FEEDERS

## KEY FEATURES

- Strong design
- Excellent weather protection
- Galvanized pipe skids
- Access Ladder
- Full length lid operated from the ground level
- Adjustable flow doors

### DOUBLE SIDED GRAIN FEEDER

2.4m (8') 2.5 tonne capacity

### DOUBLE SIDED GRAIN FEEDER

3.6m (12') 4.5 tonne capacity

### DOUBLE SIDED GRAIN FEEDER

4.8m (16') 6 tonne capacity

### SINGLE SIDED GRAIN FEEDER

7.2m (24') 10 tonne capacity

Also available, Single sided,  
6m (20'), 8 tonne capacity

### DOUBLE SIDED CALF GRAIN FEEDER

2.4m (8') 1 tonne capacity

**CALF CREEP GATES** are available  
to suit all Leichts CIA Grain Feeders

Grain Feeders  
are standard with  
a Zinc Trough and  
are fully painted

Full Zincanneal  
Options available

# HAY FEEDERS

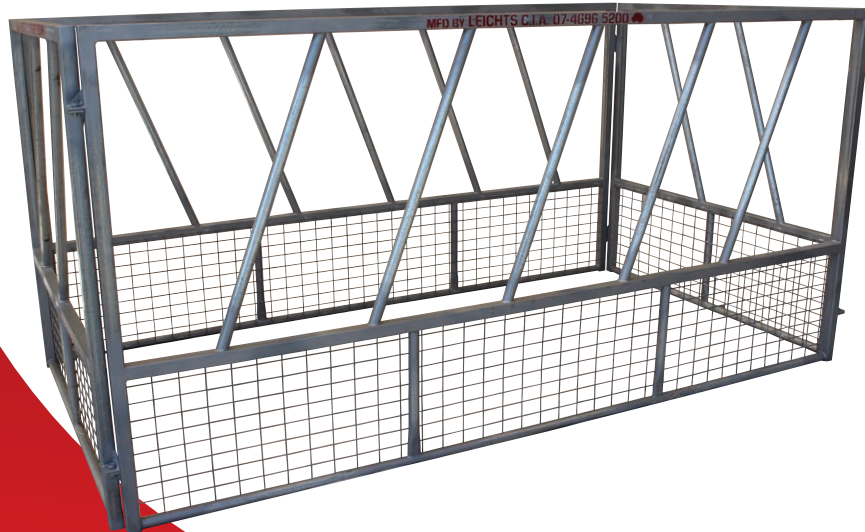

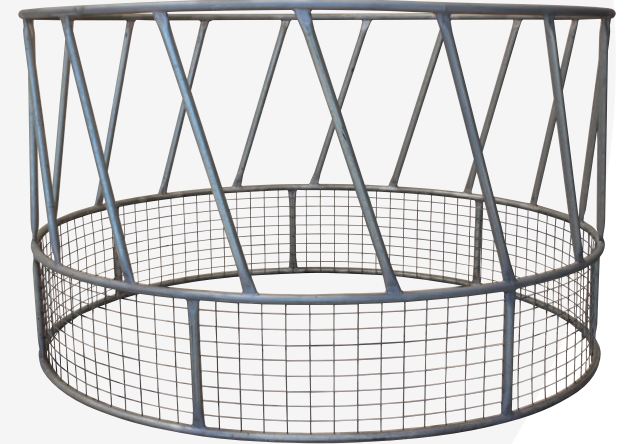

## DOUBLE ROUND BALE OR LARGE RECTANGLE BALE FEEDER
